## The Cost Of College

The table below lists the historic average cost of attending both 2 and 4 year public colleges and 4 year private colleges. Total cost includes tuition and fees plus room and board.

1) Compute the percentage change in cost from period to period. Round your answers to the nearest $1 / 10$ th percent. This first one is done for you as an example.

$(\$ 824-\$ 391) / \$ 391=1.1074 \times 100=110.7 \%$

2) Aaron started his degree at the local community college in 2022-23 and attended there for two years. Starting his third year, he transferred to an in-state university and lived on campus. He finished his degree at the university in two years. If all costs increased by $5 \%$ a year, what was the total cost of his degree? Round all answers to the nearest dollar.

1st Year Cost....... \$ 3,862
2nd Year Cost...... \$ 4,055
3rd Year Cost ...... \$ 28,342
4th Year Cost....... \$ 29,759
Total ...... \$66,018
